SKILLS

- **Languages:** Python, C, C++, Java
- **Web Technologies:** HTML, CSS, JavaScript
- **Tools/Platforms:** Jupyter Notebook, VS Code, GitHub, MySQL, Microsoft Excel, Power BI
- **Soft Skills:** Problem-Solving, Team Player, Adaptability, Time management

PROJECTS

- Road Traffic Accident Analysis Dashboard | GitHub:**

Dec' 25

 - Analyzed 12,000+ road accident records to evaluate accident severity, environmental conditions, and driver demographics.
 - Cleaned and transformed data using Power Query, handling missing values, standardizing categories, and creating derived features.
 - Identified key accident causes, weather impact, and high-risk conditions through interactive Power BI dashboard visualizations.**Tech:** Power BI, Power Query, DAX, Data Visualization
- Healthcare Data Analysis Dashboard | GitHub:**

Apr' 25

 - Examined 55,000+ patient records to understand disease distribution, admission trends, and demographic patterns.
 - Structured and refined data using Microsoft Excel and Power Query, including feature engineering and data standardization.
 - Derived insights on billing patterns, disease prevalence, and admission behavior using interactive dashboard visuals.**Tech:** Microsoft Excel, Power Query, Data Visualization
- Manipur Survey Data Analysis | GitHub:**

Mar' 25

 - Investigated 3600+ village-level records with 150+ features to study socio-economic and infrastructure patterns.
 - Processed high-dimensional data using Python, Pandas, and NumPy, including missing value handling and feature engineering.
 - Revealed trends in literacy, livelihood distribution, and financial access using visualizations such as heatmaps and scatter plots.**Tech:** Python, Pandas, NumPy, Matplotlib, Seaborn

TRAINING

- CSE Pathshala | Link:**

Jun' 25 – Jul' 25

Data Structures and Algorithms using Python Training
 - Learned fundamental and advanced Data Structures and Algorithms including arrays, linked lists, stacks, queues, trees, graphs, recursion, and sorting techniques.
 - Practiced algorithm implementation through Python-based problem solving with focus on time and space complexity optimization.
 - Created a Library Management System demonstrating real-world application of data structures and file handling.

CERTIFICATES

- Master Generative AI & Generative AI tools (ChatGPT & more) | Infosys Springboard | [Link](#)

Aug' 25
- Cloud Computing | NPTEL Online Certification | [Link](#)

May' 25
- Introduction to Software Engineering | Coursera | [Link](#)

Nov' 24

ACHIEVEMENTS

- Solved 100+ Data Structures and Algorithms problems on LeetCode:**

Jan' 26 - Present
- Built strong problem-solving ability through consistent practice of core DSA concepts.

EDUCATION

- Lovely Professional University**

Phagwara, Punjab

Bachelor of Technology - Computer Science and Engineering; CGPA: 6.79

Since Aug' 23
- Mahamaya Balika Inter College**

Noida, Uttar Pradesh

Intermediate; Percentage: 84.8%

Apr' 20 – Mar' 22
- Carmel School**

Madhupur, Jharkhand

Matriculation; Percentage: 83.6%

Apr' 19 – Mar' 20
